

Pro-pinions

MAKEUP ARTISTS, ACTORS, and MODELS LOVE ALISON RAFFAELE COSMETICS.

And in the high-definition world they live in, they should! Alison's long-lasting products not only blend perfectly, they're also light-weight and provide high coverage. The powerhouse antioxidants (and lack of damaging parabens) improves skin with every application. So that even under the hot, bright lights, skin still looks and feels fresh. See it yourself!

"All My Children"

How serendipitous to have met Alison and tried her products! Every one of my clients is looking for a flawless, natural, long lasting concealer and Alison's [True Concealer](#) is my only trusted recommendation. It is so rewarding to work on set and have talent asking for recommendations of Alison's products because they see the beauty and wear of her cosmetics. I have slowly turned each one of my sets into a fan base for her. Whether on the red carpet or wearing through a 16 hour day for film, Alison's True Concealers always stay fresh and maintain their coverage. Recently I had the great fortune to work with a lovely actress where I started with the [Face Forward Age Primer](#), which has the slip of a silk dress on the skin. It helps in applying foundation and the length of wear so that nothing settles into fine lines or wears through to large pores. I combined numbers 3 and 4 of the [Reality Base Foundation](#) to even out her sun kissed skin, then using a [concealer brush](#), treated any redness with the True Concealer. For the under eye, I mixed the True Concealer with a little under eye cream, for a moisturizing flawless result. She could not have been happier and while her skin was evened out, ultimately her youthful glow was allowed to shine through and it lasted from the red carpet through her performance and then onwards to the after party. I am also in love with the [Soft Glosses](#), as they are moisturizing and glossy but do not have the tackiness of most glosses. Alison's products enable me to be a better artist - thank you, Alison!
