

# You Deserve The Best . . . Concealer!

Have the undereye blues? Got the acne uh-ohs? Whether you want an all-star concealer that'll give you a model-caliber complexion or a pimple-tamer that's as gentle on your skin as it is tough on blemishes, we have the products that'll make your skin look perfect!

If you want . . .

## TO BRIGHTEN DARK CIRCLES:

**MAC Select Cover-Up**  
Samantha Brown, host of the Travel Channel's *Support to Great Weekends*, travels 230 days of the year. "I need concealer," laughs sleep-deprived Brown. "This one never creases or settles in the creases at the corner of eyes." It stays put, too: "It lasts all day. And since a lot of makeup is so heavy you can wear it only on the eyes, I wear this anywhere."

## ALL-OUT VERSATILITY:

**Amazing Concealer**  
If Melanie Mills, head makeup artist for *Dancing with the Stars*, could pick only one concealer to keep forever, she'd choose this celebrity fave: "This super-concentrated concealer makes anything disappear. It's waterproof, so it has staying power." And since "one tiny dab goes a long way," the travel size—called A Little Amazing—lasts for months, says Mills.

## ORGANIC COVERAGE:

**Shelly Hansen Natural Beauty**  
Inspired by Carmindy, makeup artist and author of *Beauty by the Side*, Shelly Ballesterio tried she'd never find an affordable organic concealer—until she found this drugstore gem. "It has a creamy, velvety texture," she explains. "And it's free of paraben, a preservative that can clog pores."

## TO BANISH BLEMISHES:

**Neutrogena SkinClearing Oil-Free Concealer**  
"So many concealers simply cover up, but Neutrogena doesn't just hide blemishes—it helps them heal," says renowned celebrity dermatologist Ava Shamban ([shamban-md.com](http://shamban-md.com)). "It contains salicylic acid, a gentle skin-clearing acid, and its very design keeps blemishes at bay: Its pen-like applicator means you don't need to dip your fingers into it, so you keep your makeup clean and free of bacteria."

## GOOF-PROOF PERFECTION:

**Almay Smart Shade**  
"Makeup should complement rather than cover up," says Vanessa Else, makeup artist for *All My Children*. Fittingly, her fave concealer works with your skin tone to create a flawless canvas: "Almay Smart Shade blends into your skin, automatically adjusting to the right shade for you—it's perfect when you're running out the door and don't have time to fuss."

## ON-THE-GO FIXER:

**Head Wipe Out Fix-It Stick**  
At the backstage touch-up station at plenty of star-studded events, Dee-Dee Marcelli is one busy makeup maven, so it makes sense that her go-to concealer is perfect when you're actually on-the-go. "It feels like a fat pencil, which makes it so much easier to control," she says. "It has really high pigmentation—and it blends so smoothly. I used it on everyone at the Golden Globes!"
